## AC UNIT DRIP PANS

Condensation is a normal byproduct of an operating air conditioner. Condensate from an A/C unit can cause damage and mold development in homes and offices. An air conditioner drip pan will catch this condensation and prevent it from harming your investment.

## KEY FEATURES

-  Corrosion Resistant
-  Welded Water Tight
-  Sturdy Construction
-  Quality Craftsmanship
-  Made in the USA

## AVAILABLE OPTIONS

**Materials:** Stainless Steel, Galvanized Steel

**Standard Thicknesses:** 14 GA, 18 GA, 20 GA (custom thicknesses available)

**Standard Size Range:** 12" x 12" x 2.5" - 32" x 30" x 2.5" (custom sizes available)
