**Open Front Washer
Leak Pan - 32" x 30"**
SKU: KM-07571

Volume 23

Designed + Manufactured in **The United States of America**

Originating from **Short Run Pro**, Killarney Metals was born to provide innovative, American-made spill containment solutions for residential, commercial, and industrial applications. We continue that tradition today, while keeping to our core values and paying tribute to our history. Since its founding in 2011 by the Toal family, Killarney Metals has pioneered innovation in both the residential and commercial spill containment markets.

The water damage restoration sector is a **\$20 Billion Dollar Industry** in the USA with the average damage caused by equipment leak or failure estimated at above \$11,000 per insurance claim. The majority of machines which use water will leak in their functional lifetime.

Water damage protection will soon become a building standard in single and multi-level structures with Killarney Metals as the name to trust!

Spill Containment Pans *at a glance*

Drip Pan - A welded pan with 4 sides with the intent to contain liquids

Drain Pan - A welded pan with 4 sides and a drain hole with the intent to evacuate liquids through the drain hole

Leak Pan - A welded pan with 3 side walls with the intent to allow liquids to leak out the front of the pan, serving as a leak alert notification, protecting the floor directly underneath your appliance

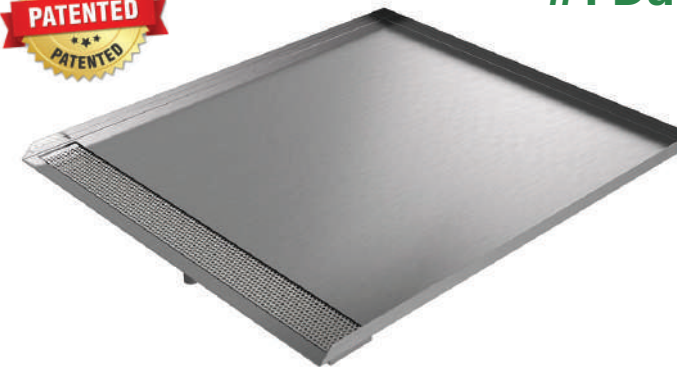

Trench Drain Pan - A welded pan with 3 sides using Patented Drain Technology with the intent to evacuate liquids through the pre-welded drain hole

Ice Machines, Dishwashers, & Compact Washing Machines

NO MORE LIFTING HEAVY APPLIANCES!

Residential Pans

WASHING MACHINES + DISHWASHERS + ACCESSORIES

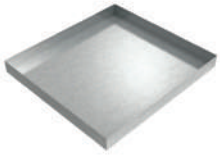

YOUR MOST IMPORTANT APPLIANCES ARE OFTEN THE MOST LIKELY TO LEAK

Protect your home from water damage, mildew, and mold by installing a pan underneath your Washing Machines & Dishwashers. Washer pans are available in a myriad of styles ranging from our patented Trench Drain Pan to standard drip pans. For Dishwashers, our Open Front Pan makes installing a pan to protect your floor easier than it's ever been. For the ultimate peace of mind, add the Leak Alert Device (LAD) to your pan and receive smartphone notifications when water is detected in your pan.

Short Run Pro provides full service capabilities from web-based engineering drawing services and prototype development to after service medium runs and large production requirements. Short Run Pro acts as the parent company for 3 sizable brands in the metal bracket market: Federal Brace, Killarney Metals, & Oeveo.

Custom Part Design + Manufacturing

Short Run Pro (SRP) originated in 2006, and continues to streamline the custom parts procurement process to this day. Through the development of manufacturing processes, SRP gives buyers access to production capabilities so deep that almost any part is possible. This exclusive process reduces design, pricing and purchasing time while providing customers quality parts made to ISO 9001:2008 certification standards.

All Short Run Pro parts are **100% Made in the United States**.

Who is Mite?

Do You Give?

Known as a “**matchmaker for givers and charities**,” Mite’s mission is to engage givers in worthy charity — they accomplish this by funding projects of trusted non-profits worldwide.

Short Run Pro & Killarney Metals believes you should know exactly how your donation is used around the world — that’s how you experience the true joy of giving. Mite’s giver guarantee is that 100% of donations go towards projects. 100% of the time.

Their first 6 years at a glance:

- Partnered with 25+ different outreach partners across 18+ countries
- Provided over \$1.3m in support of humanitarian projects
- Impacted the lives of 100k+ people

Short Run Pro is a proud partner of Mite, and is a continual donor helping to Do Good Globally. Learn more at mite.org
